

**When you host your wedding or special event...  
Remember the food is always paramount!**

## **The 5 most important questions to ask before selecting your caterer...**

From flavor to presentation, food quality is what your guests will remember long after your wedding or event is over. When choosing your caterer, select one who will deliver quality and creativity while staying within your budget.

***Before you select your caterer, here are 5 questions you need to ask....***

1. How long have they been in business and are they licensed?
2. Is food prepared fresh by a culinary professional in a commercial grade kitchen?
3. Is the service staff professional and large enough to handle your event?
4. Do they provide rentals specific to your needs, such as linens, china, etc.?
5. Can they customize your event to fit your tastes and budget?
